ABOUT THIS YACHT

The Pinnacle of Blue Voyage: A Unique Experience in Göcek with Lavin Launched in 2024, Lavin is waiting for you in Göcek harbor as one of the most up-to-date and comfortable examples of modern maritime architecture. With a length of 27 meters and a width of 7.2 meters, it promises much more than a standard boat; the comfort of a luxury villa floating on the sea. □ Spacious Living Spaces and Unique Flybridge The most striking feature of the boat is the huge Flybridge area, which is beyond the size of its class. With a 360-degree panoramic view of Göcek's unique bays, this upper floor offers both an entertainment center and a peaceful relaxation corner for crowded groups thanks to its wide usage area.

This area, where you can enjoy every hour of the day with its sunbathing cushions, large seating groups and spacious structure, is the biggest difference that distinguishes Lavin from its competitors.
